- User friendly
- Durable and reliable
- Lightweight
- Recyclable

# DIAMOND-PAK®

**DIAMOND-PAK®** bulkhead void fillers are used to fill a range of voids for boxcar, intermodal, ocean, and OTR needs. Lightweight and reliable, they provide an additional layer of load securement when used in conjunction with an air bag.

These customized honeycomb panels provide significant strength and durability to withstand end-to-end impacts in boxcars.

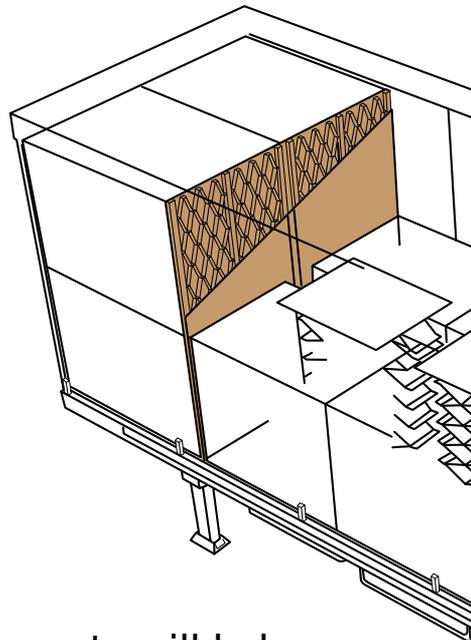

## Common sizes:

- 40" x 48"
- 45" x 89"
- 48" x 48"
- 48" x 96"
- 48" x 102"

**Common thicknesses:** 1" to 12"

**Blocks for bins:** 4" to 16"
